

## Description

This high efficiency parabolic reflector antenna makes use of the patented Stinger® slip on mounting method, thus reducing mounting cost and time of install. The low profile aesthetics of this design reduce visual impacts and windloading. The patented low loss passive coupling system ensures high performance without sacrificing SM warranty.

## Applications

- Extend your range to 5 miles without using a large reflector
- Boost signal levels for marginal customers
- Speed up your installs
- Lowers jitter

## Features

- Slip on an extra 11 dB (avg) @ 5.4 GHz
- Narrows the pattern to 12 degrees
