

## Description

This virtual connectorization device makes use of the patented Stinger® slip on mounting method, thus reducing mounting cost and time of install. The low profile aesthetics of this design reduce visual impacts and windloading. The patented low loss passive coupling system ensures high performance without sacrificing SM or AP warranty.

## Applications

- Great for temporary installations
- Great for spares backing up connectorized APs

## Features

- Virtual connectorization
- No need to have the Canopy unit modified
- *Keep your warranty intact*
- Adds only 1-1.5 dB loss over connectorized units
- Frequency band specific--be sure to order the band you need

## Specifications

### Electrical Specifications

<b>Frequency</b>	2.4, 5.3, 5.4, 5.7
<b>Gain</b>	1- 1.5 dB

### Mechanical Specifications

<b>Height</b>	6 inches
<b>Width</b>	6 inches
<b>Weight</b>	0.35 lbs (0.15 kg)
